CUSTOMIZABLE GRAPHICS

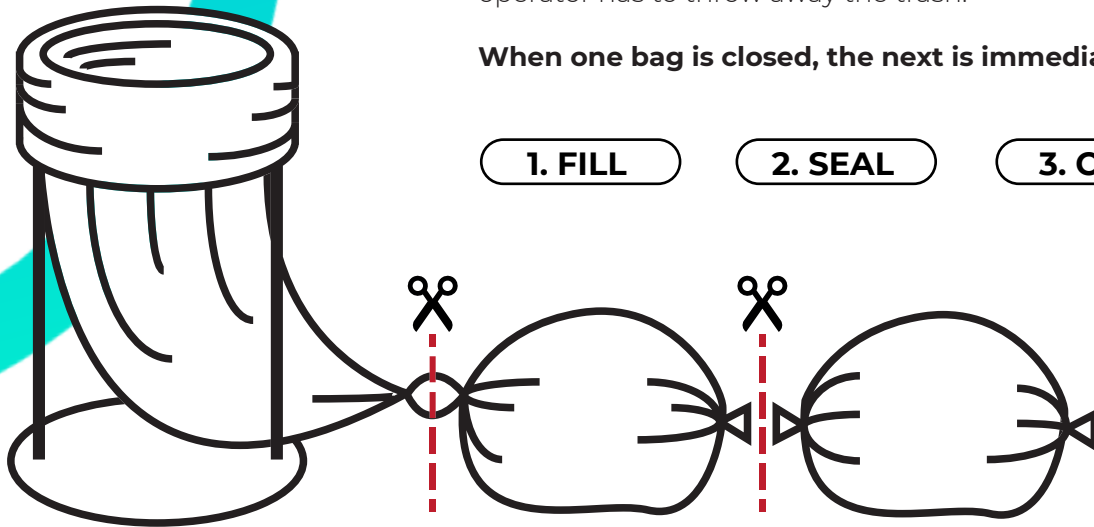

Dimensions: 40 cm(w) x 45 cm(d) x 112 cm(h surface) + 48 cm(h backrest)
Weight: 33 kg **Refill:** 3-layer bag in polyethylene

CONTINUOUS BAG SYSTEM - HOW IT WORKS?

The Saclo continuous bag system is based on a special "endless" bag (up to 110 metres long) which is unrolled, closed and cut every time the operator has to throw away the trash.

When one bag is closed, the next is immediately ready to use!

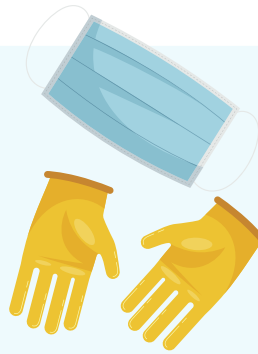

BAG
REPLACEMENT

25 sec.

Special version with double basket

Saclo CABINET Dispenser with two continuous bags

Recommended by the scientific community for potentially contaminated waste

"The risk of contamination can be effectively reduced by collecting and disposing of disposable devices (e.g. gloves, masks and other protections) and other potentially infected waste using double bags."

With our system, this can be done in a single step!
