Wooden dispenser cabinet, "Fruit and Vegetable" version, for waste collection with continuous bag system.

Saclò CABINET Dispenser

Thanks to the innovative continuous bag system, you will have the following advantages:

-  **HYGIENIC**
No contact with waste!
-  **EFFICIENCY**
50% less time to change the bag.
-  **PRACTICALITY**
Unrivalled practicality in bag change.
-  **ECO-FRIENDLY**
70% less plastic.
-  **LARGE**
Equivalent to 3 traditional bags.

FRUIT AND VEGETABLE VERSION

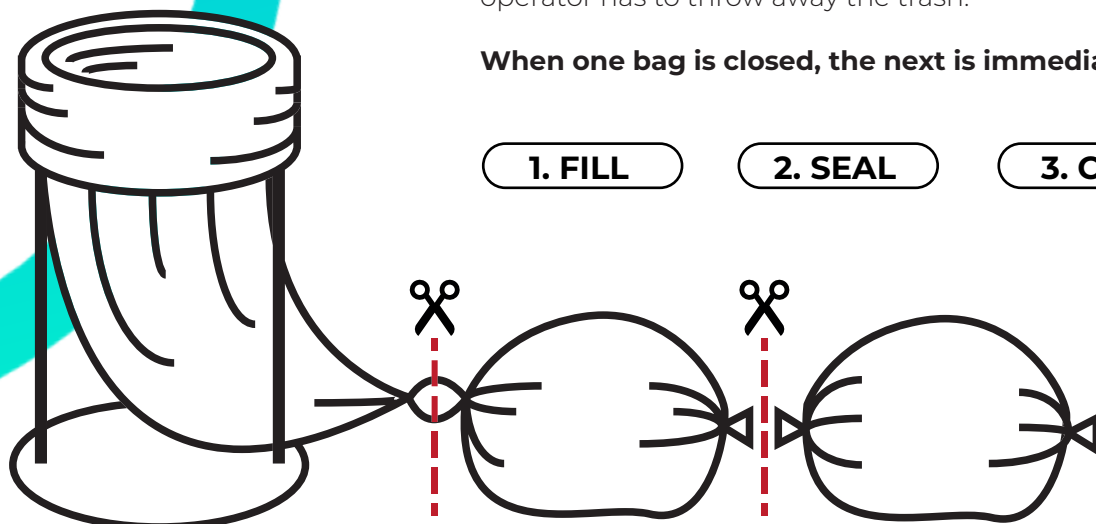

Dimensions: 40 cm(w) x 45 cm(d) x 112 cm(h surface) + 48 cm(h backrest)
Weight: 33 kg **Refill:** 3-layer bag in polyethylene (60m)

CONTINUOUS BAG SYSTEM - HOW IT WORKS?

The Saclò continuous bag system is based on a special “endless” bag (up to 110 metres long) which is unrolled, closed and cut every time the operator has to throw away the trash.

When one bag is closed, the next is immediately ready to use!

REPLACEMENT

25 sec.

Wooden dispenser cabinet, “Fruit and Vegetable” version,
for waste collection with **continuous bag system**.

Saclò CABINET Dispenser

Description

The Cabinet Dispenser in “**Fruit&Veg**” version is designed for the **produce section of supermarkets**, to be placed **alongside the scales** where the collection of **bags and gloves** usually requires large containers that are frequently monitored by shop staff.

It consists of an elegant wooden structure and a basket containing a 60-metre continuous bag refill. The door closure means you never have to see the waste collected, leaving large external surfaces free to accommodate custom graphics for every commercial need.

The vertical wooden support at the top houses **dispensers for gloves and bags** made available to customers, while the wheels at the bottom allow for easy movement when needed.

The continuous bag can be closed at any time, removing only the amount of plastic necessary. The next bag is **immediately ready for use**, significantly speeding up the staff’s work and making it easier to keep the sales area **clean and tidy**.
