 **25** sec.

CONTINUOUS BAG SYSTEM

How Does It Work?

The Saclò system is based on a **special endless bag** (up to 110 meters long) that is unrolled, sealed, and cut each time waste needs to be removed.

Once a bag is sealed, the next one is immediately **ready for use!**

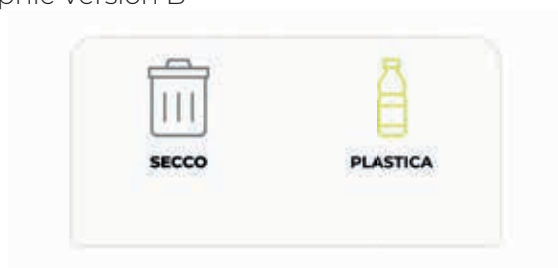

Optional features

Backrest

Saclo Cabinet Office

Elegant and functional, the Cabinet Office bin is ideal for **waste sorting** in offices, public spaces, and commercial areas. Its refined design **helps maintain a clean and tidy environment**, blending seamlessly into **high-traffic settings**.

Available in wood, oak-effect, or steel finishes, it comes with **2 or 3 openings** (4 available upon request) and uses a **continuous liner system that reduces plastic waste and halves replacement time**.

Custom graphic branding allows companies to showcase their commitment to sustainability.
